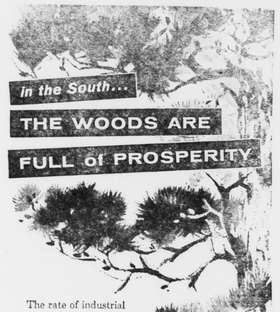
TO VISIT MOSCOW LATER

London, England.- Defense Minister Duncan Sandys will pay a "courtesy" visit to Moscow later this year, according to a report from Prime Minister Macmillan's headquarters.

The statement said the visit will not be concerned with any negotiations. It said Sandys is not likely to be able to go for several months.

Potato production in the United States has been increased by one-third by control of insects that damage or transmit diseases to potato plants.



The rate of industrial growth in the South during the past 20 years has led the nation. The pulp and paper industry is a leader in this Southern progress.

Sixty-three primary pulp and paper mills are located in Dixie. They employ over 77,000 persons in the woods, mills and offices. Another 81,000 harvest pulpwood.

The pulp and paper industry annually contributes over one billion dollars to the South's economy at the rate of three million dollars a day. It also is giving new impetus to the region's agriculture because pulpwood has become a vitally important new cash crop to Southern farmers.

Farmers and other landowners are assured an expanding market for their trees since paper consumption is growing by leaps and bounds each year. It is predicted that 50 to 60 percent more pulpwood will be needed by 1967.

Growing trees—like growing any other crop—requires sound management. Forests that are cut properly go on producing trees *generation after generation*. Forests that are now non-productive can be converted into money-making areas.

PULP and PAPER DAY—April 15

Pulp and Paper Day will be celebrated throughout the South on April 15. This event will focus public attention on the economic importance to the region of the pulp and paper industry, its role in the South's modern agricultural development . . . and the tremendous economic opportunities more productive forests offer in the years ahead.

HEART OPERATION CITED

Los Angeles, Calif.- A new operation, one that eliminates the pains of angina pectoris, a common heart ailment, was recently reported to the International College of Surgeons.

It is a chest operation in which nerve channels are severed between the heart and the left arm and shoulder, where the discomfort is felt. This does not remedy the heart disorder, a chronic circulatory complication, it was said, but it overcomes pains that sometimes hasten the death of sufferers.

EMBASSY SITE CHOSEN

Berlin.- The United States has decided on a site in West Berlin for an embassy. It is reported to be in Tiergarten Strasse, on the south side of the Tiergarten.

The site is within half a mile of East Berlin, capital of Communist East Germany. The old United States Embassy, shattered in the war, stood in the Pariser Platz, at the Southeast corner of the Brandenburg Gate. This is now within East Berlin.

From where I sit... by Joe Marsh

Grown-up "Kid Stuff"

The kids around here are sure pulling a lot of weight with local businessmen these days.

For instance, Monk McCarthy has collected and patched old inner tubes all winter. He'll pass them out for the swimming hole season—with this stenciled on: "Courtesy of *McCarthy Auto Service.*"

And Mr. Troy, over at the bank, has put in three new shiny high chairs—for visiting mothers to park their kids in. There's a sign over the chairs: "Save now for a happy future."

From where I sit, I like the way people take to new ideas to promote their business. It shows that they are open-minded. We all could stand a little more of it in our personal lives too. For example, you may prefer tea or buttermilk to my choice of a glass of beer. But if we're "open-minded" we accept the other fellow's choice.
